ASICS Corporation (hereinafter, the “Company” or “we”), hereby announce amendment to the forecast of consolidated business results for the Fiscal Year Ending December 31, 2018, previously announced on February 14, 2018.

2. Reasons for Amendment to the Forecast of Consolidated Business Results for the Fiscal Year Ending December 31, 2018

Net sales are expected to fall short of the previous forecast due mainly to weak sales in the American region and the European region. Operating income is expected to fall short of the previous forecast partly because the Group is planning to increase liquidation sales, in addition to the impact of the above-mentioned lower net sales. Ordinary income and profit attributable to owners of parent are expected to fall short of the previous forecast due mainly to recording of foreign exchange losses in addition to the above-mentioned reasons.

The Company recognizes the need for business restructuring in the Group in order to recover business results. There is a possibility of recording an extraordinary loss as the Company is considering disposing of assets in Japan and overseas. Details will be announced once they are determined.
