

Dependency Scale :  Very High  High  Medium or lower

Process		Upstream								Manu facturing factories	Own operations	Down stream
		Raw material production				Raw material processing						
Raw materials		Synthetic rubber *	Natural leather	Cotton	Recycled paper	Synthetic rubber *	Natural leather	Cotton	Recycled paper			
Dependency Assessment	<b>Provisioning services</b> <small>( genetic resources, water, etc. )</small>											
	<b>Regulating services</b> <small>( reinfall patterns, water purifications, etc. )</small>											
	<b>Cultural services</b> <small>( conservation of natural landscapes, tourism, etc. )</small>											
	<b>Habitat services</b> <small>( maintenance of habitats, etc. )</small>											

Impact Scale :  Very High  High  Medium or lower

Process		Upstream								Manu facturing factories	Own operations	Down stream
		Raw material production				Raw material processing						
Raw materials		Synthetic rubber *	Natural leather	Cotton	Recycled paper	Synthetic rubber *	Natural leather	Cotton	Recycled paper			
Impact assessment	<b>GHG emissions</b>											
	<b>Pollution</b> <small>( water quality, soil, etc. )</small>											
	<b>Land-use change</b> <small>( land, marine water, seabed, etc. )</small>											
	<b>Resource use</b> <small>( water, biological resources, etc. )</small>											
	<b>Others</b> <small>( noise, light pollution, etc. )</small>
